BOOK SYNOPSIS

Eighteen million Vespas have buzzed their way into the world since 1946. Stood end to end, they would form a line measuring 32,000 kilometres - 20,000 miles - in length. This is an almost inconceivable statistic, as with many things that transcend conventional measures and at some point achieve cult status. How did the little machine come so far? The answer is simple. The Vespa has always remained the Vespa, true to itself, and has what others lack: real character! This book tells the Vespa's story via over 470 photos, corrects many misconceptions and lets the reader become immersed in the culture of Vespa and la bella vita.

VESPA THE STORY OF A CULT CLASSIC IN PICTURES - Are you looking for Ebook Vespa The Story Of A Cult Classic In Pictures?
